

# COMMUNITY ADVISORY BOARD

Washington State

**OFFICE OF  
EQUITY**

## Who Are We?

The Community Advisory Board was established with the intention of being a platform for people in community to share their lived experience and inform on policies that effect their day-to-day lives, and to direct the actions and goals of the Office of Equity. The Community Advisory Board currently has 11 members from across the State of Washington.

## What We Do

The Community Advisory Board helps the Office of Equity understand the complexity of communities and is a point of access for communities to inform state government decisions in a direct way.
